ORIGIN OF THE "SNOB" FAMILY.

BY ONE OF 'EM.

My name is Snob—Felix Snob—one of the younger scions of that illustrious house. It is not passing strange, then, that, seeing my family assailed in a most scurrilous manner by the press, I should ask a hearing at the bar of public opinion, and seek to redress the grievous wrongs that have been heaped upon us. I, in common with all other true Snobs, have a reputation to gain *de novo*. We know that we receive great injustice in being compelled to come thus publicly "before the people," to seek that which our many and noble virtues entitle us to aside from the historic character we possess.

Yes, sirs, the antiquity of our house should alone entitle us to a great degree of veneration. It is said, indeed, that George the Fourth, Rex Britannæ, and a jolly good fellow, as the historian says, was one of the founders of our justly celebrated house. At the present day, our lineal tree has shot forth so many lateral branches, that, among "Know Nothings" and "Say Nothings," "Do Nothings" and "Have Nothings," it has become somewhat difficult to identify the parent stem. If justice was done, however, we know that each would surpass the noble and renowned house of Hapsburg.

Among the many notable things done by the ancient Snobs, was that of rescuing the "Soul of Honor" from the ruins of the dark ages, and preserving it as a sacred memento for the imitation and encouragement of the Snobs of the nineteenth century. We alone should have the credit of snatching the lance of Chivalry from the devastating clutch of Cervantes, and placing it in the hands of those worthy *hombres*, Mr. Duello and Mr. Shoulder-Striker.

It is one of the cardinal principles of our family, to look upon our honor as the thing *par excellence* of life. As a preservative of this honor—to keep it from taint or corruption—we allow no laborer to rudely brush our glossy garment, nor do we permit our "lilly white hand" to come in contact with the rude instruments of toil. We most emphatically denounce manual labor as beneath the dignity of a gentleman, and adapted only to the plebeian herd which have inherited it by Divine Prerogative. As a class, our manners are unimpeachable. We drink with those who drink, through courtesy; we laugh with those who laugh, lest we be called philosophers; we swear with those who swear, merely from the force of habit; we pay our debts when we feel like doing so; we go to balls to dance and drink; and to church to exhibit our grace, display our jewelry, and study the divine and beautiful in the faces of the better half of God's creation.

Indeed, though of regal descent, we are veritable "Young Americans," generally, following the injunction of good old Paul in doing, when in Rome, as all good Romans would have us do. Neither is it always unavailable for us to yield our aristocratic habits. By so doing, or by tricks of legerdemain, we sometimes reach the high places in the land. It is even hinted that some people are now occupying some of the highest "Benches" in the Temple of Justice, and that others are making rapid strides towards the halls of our National Legislature. Some say that it is wrong, but tardy justice rendered to deserving men. Our enemies look upon us as "small potatoes," but time will prove that we are not to be lightly cast aside.

We can prove clearly and logically that we are absolutely necessary to the welfare of the community. We act as purifiers of the elements of society. Abolitionism, annexation, &c., are hobbies erected by us to secure the spoils, as the fox in the case of those cats and the cheese.

We are always ready to serve the "dear good people" for the moderate sum of ten or fifteen thousand a year. Some of us can endure the privations and hardships of a seat in the State Legislature—provided we have stealing and the proceeds of self sales thrown in, and the assurance the matter will only receive a significant twitch, sometimes called an optical illusion and sometimes a "wink."

Now, sirs, I think the most skeptical of my readers, if I should be so fortunate as to have one, must acknowledge the force of these remarks, and moreover that my friends of the family will raise me a monument in payment of this able defence.

Respectfully,
FELIX SNOB.

TEHAMA, Cal., Aug. 11, 1854.

NEAR THE MARK.—In company, the other night, a number of ladies being present, a young man proposed a conundrum, which he said he had read in the papers. It was this: "When is a lady not a lady?" There was a pause—"Give it up," said all round, when, to the infinite horror of the whole party, the querist exclaimed—"When she's a little *buggy!*" Nobody laughed—some were demure, some indignant, and some no doubt inclined to scratch the querist's face a little. He was disappointed. Fumbling in his pocket he pulled out a paper, which consulting for a moment, he ejaculated—"Oh, I beg your pardon, ladies, I made a mistake. The answer is—'when she's a little *sulky!*' I knew it was some sort of a carriage."

THEATRICALS IN SAN DIEGO.—A beautiful and spacious theatre has lately been erected on the northeasterly side of the Plaza. Mr. Nom-de-dum, the enterprising manager, assures us that he has engaged talent of the highest order, and that the opening on next Monday evening will be without a paralel in the known world. The pieces selected for this grand occasion exibit the good judgment and exquisite taste of manager Nom-de-dum.—Hiescoto's grand and sublime tragedy, in twenty-five acts, "No-you-don't," or "Yes I did," will be performed for the first time in any country, Madam Squawesetic sustaining the difficult role of No-you-Don't," Signo-soo Spinestesa playing "Yes I-Did." Large additions have been made to the already numerous orchestra, two accordeons, and one 350 years old Cremona violin, (supposed to have been used by Paganini at his last debut,) having arrived by the Seabird. Professor Fitchunto will preside at the accordeon. Between the pieces, immediately after the fall of the curtain, Mademoiselle Manyarstoshow will dance the Tareadstepoff, after which the farce of "Gohometobedtonight" will be performed, Monsieur Legsin making his first appearance in his original character No-Cupons.

We sincerely hope that an overflowing house will greet the new planets on this, their first appearance in San Diego.

N. B. Don't go into the front seat on the left hand side of the middle aisle as you go down the parquette, as that is reserved expressly for us.—*San Diego Herald.*

FEMALE EDUCATION IN JAPAN.—As much care is bestowed on the education of the women in Japan as of the men. The science of the Almanac is esteemed one of the most important branches of school learning, to avoid commencing a weighty undertaking on an unlucky day! At the age of fifteen years, the boys have their heads shaved, and become thereby members of society. They also receive a new name at this time, and invariably, upon every advance in rank, the old cognomen is changed for a new one.

In marrying, equality of rank between the contracting parties is the first requirement, and when no obstacle of this sort stands in the way, the youth declares his passion by attaching a branch of a certain shrub to the house of the young lady's parents. If this is neglected, so is his suit; if it is accepted, so is the lover; and if the damsel wishes to put her reciprocity of this offer beyond a doubt, she forthwith blackens her teeth.

Presents, as amongst most oriental nations, are now exchanged, and after, with great ceremony, burning her toys, to indicate that she is to be no longer childish, she is presented by her parents with a marriage dress and some articles of household furniture, among which are always a spinning-wheel a loom, and the culinary implements required in a Japanese kitchen. All this bridal equipment is conveyed in great state to the bridegroom's house and exhibited on the day of the wedding.

A CURIOUS FACT.—There is a bridge over the Rhine at Bale, which connects the principal city with a smaller town on the other, called Little Bale. Between these two towns, it is said, there was much contention and local jealousy, of which there is still remaining a most laughable monument. In the tower directly facing the bridge, is a public clock and a carved image of a human face, whose perpetual business seems to be to make faces at Little Bale. The image has its mouth a little open, and is furnished with a long tongue of very red color, which is so connected with the pendulum of the clock, that every vibration in one direction runs it out in threatening, scornful, venomous brandishing towards Little Bale, and the return strokes draws it in. The device is so queer, so expressive, and at the same time so ludicrous, that I could scarcely refrain from laughing right heartily in the public thoroughfare when I saw it, and I have felt my risibilities excited ever since whenever my mind has reverted to the perpetual spitting out of the scornful red tongue towards the insulted and scorned town of Little Bale.

"LARNING TO DANCE FANCY."—Occasionally one of the "raal Old Virginny" comes along, and we get a "wrinkle" worth placing on the record. The way which old Butler learned to dance was of the sort, and his description short and graphic. Butler had delighted us with a regular break-down just after harvest. It is true, old Dave had the heels of him, at least; they were neck and neck, but Butler distanced Dave in gab.

"Where was it, Butler," we ventured to ask, "where was it you learned those extra touches?"

"Why, you see, Massa Johnny, 'twas when old Misser Zuppee—you 'member old Misser Zuppee—was teachin' dancin' school 'bout here, I used to go round wid him; I waited on him, Misser Zuppee, I did, sir, and I used to watch the scholars, sir, and when Sunday come, I'd jest go way out in de woods, sir, and bend down a souple saplin', sir; *dat*, sir, you see, gi' me de springy motion, and I put in de fancy steps from memory."

Here Butler cut the most inimitable caper, and retired perfectly satisfied with the impression he had made.—*Spirit of the Times.*

VERY TOUCHING.—Here is a touching description of a moonlight scene:

After whirling for some time in the ecstatic mazes of a delightful waltz, Cornelia and myself stepped out unobserved on to the balcony, to enjoy a few of those moments of solitude so precious to lovers. It was a glorious night—the air was cool and refreshing. As I gazed on the beautiful being at my side, I thought I never saw her look so lovely; the full moon cast her bright rays over her whole person, giving her an almost angelic appearance, and imparting to her flowing curls a still more golden hue. One of her soft, fair hands rested in mine, and ever and anon she met my ardent gaze with one of pure, confiding love. Suddenly a change came over her soft features, her full, red lip trembled as if with suppressed emotion, a tear-drop rested on her long, drooping lashes, the muscles around her faultless mouth became convulsed, she gasped for breath—and snatching her hand from the warm pressure of my own, she turned suddenly away, buried her face in her fine cambric handkerchief, and—sneezed!

CANDIDATES.—Quite a respectable number of gentlemen are now before the people of this county, asking for favors at the election on Wednesday next. For State Senator, three candidates are in the field: Major McNeill, of Quartzburg, the Democratic nominee; Gen. Harrison, of Coulterville, the Whig candidate; and S. S. Reynolds, the chosen of the "Miners' and Workingmen's Convention." For the Assembly, we have Messrs. Flournoy and Hawkins, on the Democratic ticket; Lamon and Burke on the Independent; and Col. Stevinson on the Whig ticket. We believe that Mr. Burke's name has also been placed upon the Whig ticket, but cannot say positively, not having been favored with a sight of the "documents"—that party having imported their ballots from some foreign country. We wonder what that dodge means—can anybody inform us?

In this township (No. 3) there are five candidates for Justice of the Peace, and only about fourteen for the office of Constable. From circumstances known only to ourselves, and which have only come to our knowledge during the last week, we have arrived at the conclusion—painful though it be—that a large portion of this formidable list will be elected to——stay at home.

Of the above mentioned candidates, some twenty-seven in number, we believe but two have ever been elected to any office in this State. One of whom, A. F. Washburn, Esq., one of the present Justices for this township, has thus far proved one of the most faithful and efficient officers ever elected in this county, and we most cordially recommend him to the voters of township No. 3 on the day of election.

We are firm believers in the maxim "Sufficient for the day is the evil thereof,"—consequently we shall not name the lucky ones for a week or two yet,—(of course we know, but don't like to tell,)—fearing that the information might prove fatal to many fond anticipations of future good things. We are like the old woman we read of—"Go it, boys! we don't care who wins!"

GILA TERRITORY.—The Alta says that there are several companies forming in this State for the purpose of developing the resources of the Gila Territory, lately purchased from Mexico, and that some of the first men are engaged in it. Immense mineral resources are spoken of. One or two are going down to take possession of the celebrated copper mines near the line, which besides from seventy-five to eighty per cent. of copper, are reported to contain considerable gold.

Another, formed about a month ago, is the Colorado Company, owners of the new city of Colorado, near Fort Yuma. Their object is a magnificent one, and should they succeed as they expect, a new era for the San Francisco merchants will begin. They propose to open steam navigation on the Upper Colorado, approach the Mormon settlement towards Salt Lake to the nearest point, and thus open the trade with about one hundred thousand people, who now draw their powerful supplies from St. Louis, Mo. Their place, they say, will also be the post for the new territory, the country between the Gila and Colorado rivers and the Northern States of Mexico.

The Know Nothings of San Francisco, on Saturday evening last, nominated Mr. Lucian Hermann for Mayor of that city.

A FEW MORE!—A fight took place on Saturday last, at Princeton, between two "Greasers," one of whom is so severely stabbed that his life is despaired of. The next day another row occurred between a Chileno and a Mexican, in which one of the parties was slightly wounded with a pistol ball. On the same day, a fight occurred at a grocery in Bear Valley, between two Chilenos, originating in some trifling difficulty, resulting in the wounding of one of them mortally. Another who attempted to separate the combattants, was badly cut across the back and wrist. Bear Valley acquired an unenviable reputation last winter for scenes of this kind, and, from present indications, we infer that the *regular season* is again about commencing.

LYNCH LAW.—Two men were arrested on the 29th August, in San Antonio, with five head of stolen cattle in their possession. A meeting of citizens was immediately held, and a vote taken whether they should be lynched or given up to the authorities; the result was a tie vote, and the chairman decided in favor of law and order. During the night, however, some forty or fifty persons held another meeting, and at 6 o'clock on Wednesday morning the prisoners were taken to an oak tree and hung. One was a Frenchman named Arnaud Coreene, and the other a native of Illinois, named Peter Auchimbault.

SAN FRANCISCO AND THE CHINESE.—A special committee on the Chinese question have reported to the Board of Assistant Aldermen of San Francisco, that the building known as the Canton Hospital is in a horribly filthy condition, and that in three houses visited by them, there were fifteen hundred Celestials packed away. They also report, that during the fortnight ending August 21st, twenty-seven hundred arrived in that city.

CONVENTION OF THE "TRUE DEMOCRACY." We have received a slip from the Sonora Herald office, says the Alta, containing a report of a Convention of the "True Democracy." In these days of "Bogusites" and "Bolters," "Rosewaters" and "Bones and Sinews," will somebody please to be so good as to inform us in brief who are the "true" Democracy? We pause for a reply. Gentlemen, don't all speak at once

According to the last census there were only 2,026,280 foreigners in the United States, of whom 961,716 were natives of Ireland. Of the others, from England, Scotland, Germany and Norway, a large proportion are Protestants. The number of Protestant churches was 28,732; the number of Catholic churches, 1,112. Value of Protestant church property, $50,129,874; value of Catholic church property, $8,793,838.

GREAT PREPARATIONS BY THE CUBA FILIBUSTERS.—The editor of the Alexandria Democrat, (Red River, La.,) has been spending some time among his brother filibusters in New Orleans, and writes joyously home to his paper, as follows:

The fate of Cuba is sealed Nothing short of the hand of Omnipotence can save her now, and the Queen of the Antilles may set about preparing a wedding dress for her marriage to Uncle Sam. It does not matter a straw whether we kick up a war with her about the Black Warrior case, or let that take its place among the thousand and one other indignities we have impatiently endured. There is an expedition on foot, having for its object her overthrow, of a character altogether too formidable to admit a loop upon which to hang a doubt. This is positively true, and what is a little remarkable, there is no disguise whatever about it. Men talk of it here as an event beyond the surveillance of chance. "There is no such word as fail!" Blatherskite meetings are not held, nor are our risibles excited by symbolic givings out of any mysterious hints. But what amounts to something more, and better, a hundred subscription books are open, and I state a fact within my own knowledge, that nearly half a million dollars has been subscribed in New Orleans, and paid in. Any one can see these books, witness the paying down of cash by what I may call a countless throng, crowding and forking-over whatever he may deem proper. Munitions of war, huge cannon, muskets, powder, etc., leave here almost daily for New York, and large bodies of emigrants are pressing forward to the Rio Grande. Up to this time these public movements have encountered no obstacles, nor will they in future. Men have charge of the expedition now who are not half-brained fools, but energetic, practical business operators. They will start with the sinews of war—money; with picked men—not the rag-tag and bobtail of large cities; and with appointments for any emergency.

INDIAN RESERVATION.—The press of the State, very generally, speak highly of Lt. Beale's management of the Indians at the Reservation. We agree with them, and have said so more than once. But while we are just towards him, let us not be ungenerous towards those who preceded him. He was not the first who put the Indians to work, acting as U. S. Agent. Two splendid crops of wheat and barley were raised on the Frezno in 1851-2, under the guidance of Major Savage, with the authority of Dr. Wozencratt, then Indian Commissioner. The same person who now directs the operations of the Indians at the Reservation, Mr. Bishop, supervised their operations at the Frezno during those years. Dr. W. has received much abuse on account of his position as Indian Commissioner. It is but a fair offset that he should have the credit of having first set the ball in motion. He and his colleagues, McKee and Barbour, were the first in the field. Lieut. Beale has done wonders, and we would be the last to detract from his well-earned reputation. But he would not claim any, due fairly to another.—*San Francisco Chronicle.*

RAIN.—A slight shower of rain fell in Stockton on Monday, the 21st inst. On the same day, quite a refreshing shower fell in Sacramento. In Nevada it rained two hours, so that the streets became quite muddy.

[CORRESPONDENCE OF THE MARIPOSA CHRONICLE.]

FREZNO RIVER, Aug. 26, 1854.

Messrs. Editors:—Perhaps a few lines from this out-of-the-way place will not be uninteresting to your readers.

Our population has been thinned lately by the Kern River excitements, but those remaining are satisfied with the wages they make here, without going farther and perhaps receiving less pay. From Haler & Co.'s store to Mr. John F. Hunt's store, the miners are making, generally, more than average wages. Indians are making from $3 to $4 per day, with pans.

Mr. Hunt deserves great credit for his conduct towards the Indians, and they place the utmost confidence in him; but in spite of all his endeavors, white men will buy whiskey and give it to the Indians for base purposes.

The election excitement has not reached here. We have had no speaking on either side, and both tickets will be split. The Broderickites have lately sent up their public documents, but it's no go—none of David's party here.

Very respectfully,

FREZNO.

BILLS OF INTEREST TO THE PACIFIC COAST. On the 6th of July the Senate concurred with the House in the passage of the following bills:

An act to provide for the construction of a military road from Great Salt Lake City, in the Territory of Utah, to the eastern boundary of the State of California.

An act to provide for the continuation of the military road from Myrtle Creek to Scottsburgh, in Oregon.

An act to authorize the Secretary of War to settle and adjust the expenses of the Rogue River Indian War.

An act to refund to the Territory of Utah the expenses incurred by said Territory in suppressing Indian hostilities.

An act for the construction of certain military roads and wells in New Mexico.

The House of Representatives, having under consideration the General Appropriation Bill, appropriated $106,500 for the completion of the Marine Hospitals at Cleveland, Chicago, Louisville, Paducah, Evansville and San Francisco.

A VETERAN IMMIGRANT.—On Monday last, says the Marysville Herald, Mr. John A. Thompson, a genuine representative of Pike, called on us to say that he had just arrived, across the Plains, from Atchison county, Missouri; that the company of which he was a member numbered 101 souls at the starting, one of whom—Richard Beard—was drowned in attempting to cross Green River; the remaining 100 arrived here in excellent health. They left the Missouri River on the 25th of April and brought with them, besides their teams, 100 head of cattle, including horses and mules, all of which arrived in good condition. Mr. Thompson was accompanied by his mother, Mrs. Malinda Thompson, aged *eighty-one years*, who frequently travelled on foot from one to two miles at a time, while in the mountains, and arrived in more robust health than when she started. They are on the way to join a son and brother, James Thompson, in Contra Costa.

ARTESIAN WELLS.—The San Jose *Tribune* says that the boring of Artesian wells is being prosecuted with great success in that vicinity. Mr. G. A. Dabney has just had one completed in that city, which throws up a stream of water through a pipe six inches in diameter, with extraordinary force. The pipe extends some eighteen inches above the common level of the ground, over the mouth of which two men have not sufficient strength to hold a small object, excluding the flow of the water altogether. The experiment was tried with a spade; the men held the spade over the pipe by leaving a small aperture for the water to escape, through which it was forced up perpendicularly ten or twelve feet. It is supposed that the water from this well may be raised to a height of thirty feet. When the flow of the water is unobstructed, it is formed in a solid column about sixteen inches above the top of the pipe.

IMPORTANT DECISION.—The Downieville Citizen states that during the recent term of the District Court at that place, "Judge Barbour decided that officers, in levying upon and selling houses, etc., upon mineral lands, mining, quartz and water claims, and ditches, must treat them as real estate, they being appurtenant to the reality. This decision is one of the most important ever made in any Court in the State, as the principles involved therein govern nearly all the property sold under execution in the mining counties."

THE KNOW-NOTHINGS IN TUOLUMNE.—The Union Democrat of Saturday, says: "We hear it 'intimated' that there is a society in this city (Sonora) called the Know-Nothings. We don't know anything about it." A correspondent of the same paper, writing from Jamestown, says: "The Know-Nothings are amongst us, and progressing slowly but surely. Ask them what you will, and the answer is, 'I don't know.' But the Do-Nothings are far more numerous, in consequence of the lack of water."

COTILLION PARTY.—Messrs. Bales & Turner, have made arrangements for a grand cotillion party to come off at the Bridgeport Hotel on Thursday evening next, the 7th Inst. The following gentlemen have been named as managers; Messrs. James Roberts, J. H. Neale, R. H. Daly, and J. F. McNamara.

We venture to predict, that this will prove the most pleasant and agreeable social party of the season.

GRAIN BURNED.—The California Express states that a fire has been raging for several days in the grain fields on the Sacramento river, opposite the Buttes.—In a range of five miles the loss of wheat and barley is estimated at $5000.

MILLERTON, Aug. 27, 1854.

Editors Chronicle:—Here we are all life and excitement once more. Between the river going down fast, and the electioneering excitement, we are all in good spirits and anticipating good times. In many of the old claims, heretofore left unworked, there have been wheels put in and sluicing companies established, where four men to a sluice can make $80 per day, while one man with a rocker could not exceed $4. There are many men coming here every day, returning from Kern River Diggings, and stopping here to recruit their health and pockets. Why will so many infatuated men rush ahead whilst they get warning from the number they see and meet returning.

The Democratic ticket seems to be all the go in these diggings; but there is one principle established with Whigs and Democrats, that no nominee, unless those who support Senator Gwin, can get any votes in these diggings; for all who support the Broderick clique have no show.

I should have mentioned that there are many companies at present putting in wheels for sluicing, who anticipate a goodly yield of the shiny ore. Among others I may mention Donaldson & Co., Red Banks; Cox & Co., Quicksilver Bar; Jordan & Co., Millerton Bar; and many others too numerous to mention.

Yours, &c. JERRY.

SPORTING.—The great race so much talked of lately, came off on Thursday the 24th ult. at or near Mr Turners ranch on the Mariposa. The distance was one mile.

Five entries were made $250 entrance money. The stakes, were won by Mr. Gregory's Kate Hayes, beating all the others some 45 yards. Time 1m 56 seconds. A large amount of money changed hands, betting being heavy against Kate. When about half over the track the mare commenced putting in her best licks, closely followed by Capt. Boling's horse and Mr. Benbrook's mare, winning as above.

The track was in a miserable condition being fetlock deep.

Another match has been made between a two year old belonging to Mr. Greene, and Mr. Snellings Stallion for $1000. distance 400 yards, to come off tomorrow the 2d inst. at Snellings Ranch on the Merced.

Capt. Boling and Mr. Gregory have also another race made up for a purse of $1000, to take place sometime in October, day not yet fixed—between Kate Hayes and Sway Back, the latter entered by Capt. Boling, also to take place at Snelling's Ranch.

ROBBERS.—That there is an organized band of robbers and murderers prowling over the southern portion of the State, there exists not a doubt in the minds of many of our citizens. Scarcely a day passes but we hear of some outrages committed by Mexicans and others.

On Wednesday evening last, as the Sonora mail carrier was descending a hill in view of the village of Coulterville, he was fired at by a Mexican in the chapparel, who immediately spurred his animal up the hill. Mr. Metson fired at him, and also at his companion, who fled with him. It was quite dark, and it is not known whether either of them were wounded or not.

During the last week six animals have been stolen—it is supposed by Mexicans—from the vicinity of Maxwell's Creek.

A little of the interest manifested in the Chinese question, diverted to the Mexican cause, might probably produce some good results.

A Mexican named Modesto was stabbed (probably mortally,) on the night of August 29th, at Big Oak Flat, Tuolumne County, by another Mexican named Pedro, a gambler, generally known as "Six-toed Pete," or "Pata de Oso." Pedro escaped immediately, and has not yet been arrested. We understand that he is generally known, and consequently will be easily identified. He has six toes on each foot, which compels him to wear a sort of moccasin. Two of the fingers of one of his hands are grown together, and he has the wound of a pistol ball in his breast, which he received from a Chileno in Agua Frio in the year 1850, besides other wounds about his person.

HORRID MURDER.—A Chileno, name not known, was brutally murdered on Tuesday night last, says the Sonora Democrat of the 26th, at Poverty Hill, while he was in his bed. His head was cut and mangled in a shocking manner with an axe. A Chileno named Juan Turson is supposed to be the murderer, who is still at large. He is described as a man of about forty years of age, five feet ten inches in height, weighing about one hundred and sixty pounds, dark complexion, and dark whiskers. He has a scar on one check, and speaks very quick and low toned. Wears a Leghorn hat.

ACCIDENT.—An accident occurred on Tuesday night, says the Columbia Gazette, by which a buggy party were precipitated into a deep hole near the Union Hotel. Fortunately, no bones were broken. Two ladies and two small children were in the carriage at the time, and were considerably frightened. The horses were saved, but the carriage was rendered *unwheelable*.

Fred. Douglass, it is said, declines to be a candidate for Congress, on the ground that he cannot take the oath to support the Constitution of the United States. It is a pity such an ornament as he would prove in Congress should be debarred from taking a seat. Cannot the Constitution be amended to his taste?

WM. P. Daingerfield was nominated on the 26th ult., by the Democrats of the Ninth Judicial District, as their Candidate for the Judgeship of that District.

We clip the following from the Deseret News:

THE EMIGRANTS.—A small company of emigrants with six waggons passed through this city on the 2d of June, on their way from the States to California. This is the first company which has arrived this season; they left Council Bluffs April 12th.

Brigham Young has issued an address, in the News of the 13th of July, to the "Emigration from the East, the Pacific, and the Land Sharks of Utah," in which the following characteristic paragraph occurs:—

"Among the various classes of society, the following subdivisions will sometimes be heard, viz: "the Lord's poor," "the Devil's poor," and the "poor devils." The two latter classes exist to a certain extent in all communities, and of course it is not reasonable to expect that Utah is able to claim entire exemption; hence, fortunately, or unfortunately, she is reasonably well supplied with that class called "poor devils," in spite of all her efforts to rid her borders of such an annoyance. Inasmuch as "poor devils" are not necessarily and invariably actually *poor* in this world's goods, but often quite wealthy; to prevent being misunderstood, and to carry out our present design plainly, we shall call them "Land Sharks of Utah;" both those professing to be "Mormons," and those who make no profession but to serve themselves."

He says, "thus far, this season, very few emigrants have passed through Great Salt Lake City, en route for the west. This course has been a benefit, blessing, and real gratification to every valuable and correct hinking inhabitant of Utah, and an advantage to the passing travellers."

HORRIBLE INFANTICIDE.—Yesterday morning, Dr. Taplin, of this city, came to the City Marshal's office, and stated to Marshal North that he was in possession of facts relating to a murder in this city, but was afraid of his life should he disclose the same, without being assured of the protection of the law. Marshal North informed him he should have it, when the Doctor made a statement to the following effect: About one week since he was called upon to attend one Mrs. Hall, who resides on First street, near Market, who had just been confined. While there, the husband asked if he could not "make way" with the chi'd, or in other words, kill it. The Doctor replied that such a proposition was inhuman, and suggested that if the child was a burthen on their hands, that it be left at the door of some known humane person. While thus conversing, the baby commenced crying, when the brute of a father asked why it could not be shut up, and receiving no reply, as the Doctor avers, deliberately choked the infant till life was extinct. After the deed was perpetrated, Hall informed Dr. Taplin that if he mentioned it, "his business would be settled too." Marshal North immediately procured a warrant, and in company with Officers Green and Nugent, arrested Hall and wife. The latter was bailed out in the sum of $5,000, and the husband locked up. The whole affair reveals one of the most horrible and cold blooded murders on record in the annals of crime, and we hope, if the Doctor's statement is true, that the wretch may be punished to the utmost penalty.—*Com. Adv. 24th ult.*

EXTRAORDINARY PHENOMENON.—An extraordinary atmospheric penomenon, recently occurred at Douglass Flat, in a place known as the South-western Tunnel. A company was engaged in drifting, to meet a shaft that had formerly been sunk to the depth of one hundred and nine feet, for the purpose of draining the flat. After penetrating to the distance of fourteen hundred feet, one of the hands suddenly struck the shaft—admitting a tremendous rush of air and water into the drain. As soon as the mephitic air from the shaft came in contact with the atmosphere of the drain, combustion took place completely burning off the hair and beard of the man, who barely escaped death.

DREADFUL ACCIDENT.—Samuel Wright Tyler, formerly of Wisconsin, on Sunday last, accompanied by a number of acquaintances, went into the tunnelling of the New Almaden quicksilver mines, for the purpose of exploring them. Each of the party was provided with a candle.—After proceeding a short distance Mr. Tyler and his party halted for a moment, and while he was urging upon them the necessity of great caution, to avoid the deep pits which abound throughout the dark chambers in the mines, he gave one step back, and fell into a pit twenty feet deep, from which he was taken insensible, and now lies in a very precarious condition. No bones were broken.—*San Jose Telegraph, Aug. 24th.*

NEW COAL MINES IN BELLINGHAM'S BAY.—Several new coal mines have recently been discovered at Bellingham's Bay, one of which is reported to be twenty feet in thickness, and of excellent quality. This must certainly be considered one of the most important items of intelligence, affecting, as it does, most of the industrial and commercial interests of the country.

ANOTHER TOWN DESTROYED BY FIRE.—From a telegraphic dispatch in the Sacramento Union, we learn that the town of French Corral, a town of 75 or 100 houses, was destroyed by fire on Friday night.—The fire originated accidentally, in the California House. Only three buildings are left.

MORE CHINESE.—No less than 840 Chinese arrived in San Francisco in 24 hours from Friday to Saturday last.

HAY BURNED.—Some 75 or 80 tons of hay belonging to a Mr. McDonald, at the Calaveras crossing on the Mokelumne, Hill road, we are informed, was consumed by fire on Friday night. It is attributed to incendiarism.

Two of the gentlemen nominated by the "Bogus Democracy" of Tuolumne county, refuse to have honor thrust upon them—from such a source—and have declined running.

INFORMATION WANTED—Of Mr. Wm. G. Long, who left San Francisco about twelve months since for Marysville, since which time he has not been heard from. Any information regarding his whereabouts will be thankfully received by San Francisco Lodge, No. 3, I. O. O. F.

We are indebted to Wells, Fargo & Co., through Mr. Stelle, for a full supply of San Francisco and Interior papers, during last week. Also to Mr. Gardner of Adams & Co., for Sacramento papers on Thursday.

We perceive that Dr. Kavanaugh has succeeded in getting up steam again, at his Saw Mill in this place, and is prepared to execute all orders in the lumber line.

WHAT OUR CANDIDATES SAY.

STATE SENATORS.

McNeill says—Nothing!

Harrison says—We havn't heard what.

Reynolds says—He is afraid he'll be elected.

ASSEMBLYMEN.

Flournoy talks old fashioned Democracy, as a general thing.

Hawkins says—He is for Hawkins, and his name is Hawkins.

Stevinson says—Just what McNeill does.

Burke says—If he is elected, he will not consent to have the "Hon." hitched to his name. We presume he thinks that the Legislature of this State has forfeited all rightful claim to the title.

Lamon says—He's for Retrenchment and Reform, and a general cleaning out of every man who now holds office in the State.

Here are the names of all the gentlemen, we believe, who are candidates for the Legislature in this County at the approaching election. We call upon every American citizen to come up to the polls on Wednesday next, and cast his vote for whom he pleases.

The Cheap Postage System in Great Britain went into operation in 1840. The first year's operations of the reduced rates produced a profit of £500,789 against £1,634,764 for the prior year. The new order of things has gone on from year to year, until now we find that the letters mailed have increased 500 per cent. between 1849 and 1843—viz: being 2,000,000 in 1843, and the increase is still going on.

On the 20th ult., at about 11 o'clock in the evening, a mob of nearly one hundred men was raised in Nevada, backed by the citizens generally, which proceeded to every Chinese brothel in town, and turned the inmates into the streets, and every article of furniture was either demolished or pitched out of doors. Of the great number who have graced (!) this place, but one solitary "pig-tail" was to be seen the next morning. It is said that the Chinese will not be suffered again to enter Nevada.

PORT ORFORD MINES.—The Umpqua Gazette exposes with great severity the misrepresentations which have been made respecting these mines. It is stated as a fact, that every dollar's worth of gold dug will be at a cost to the miner of at least five dollars.

DIED:

In this place, on Friday morning, the 25th ult., MISS CYNDA REDMAN, of affection of the heart, aged about 29 years.

On the following morning, the remains of the deceased, accompanied by numerous friends, were conveyed to the Mariposa burial ground, where, after the usual burial service was performed by the Rev. Mr. Diehl, they were deposited in their final resting place.

The Eyes! The Eyes!!

DR. E. H. PARDEE, OCULIST.

AFTER a protracted blindness of more than five years, DR. PARDEE has made himself thoroughly and scientifically acquainted with all disorders of the Eye, and is now practising, with universal success, the same treatment by which he was cured.

A WORD OF CAUTION.—The Eye is by far too precious and delicate an organ to be trifled with or made the subject of random experiments; therefore it would be exceedingly unwise, and perhaps dangerous, to accept any of the "Never-Failing Cures" that are tendered by the mistaken kindness of all around, "for every one offers a specific for diseases of the eye.

☞ Many patients can be seen daily at the office of DR. PARDEE, in different stages of recovery.

OFFICE.—San Francisco, west of the Plaza, opposite the Post Office, one door north of the Portsmouth House, up stairs. sep1-tf

Dr. D. Burbank,

PRACTICAL DENTIST,

WOULD call the attention of his friends, and the inhabitants of San Francisco and vicinity to his office, where they can have all Dentist Operations, whether SURGICAL OR MECHANICAL, done in a style that cannot be excelled or even equalled by any Operator in this City or Country.

DR. B. would say to those wishing Artificial Teeth, that he is now prepared to manufacture and insert

BLOCK GUM TEETH,

which for natural appearance, beauty, and durability, are superior to any thing before used in this place.

Persons wishing to have Teeth filled, will find that Dr. B.'s operations are not excelled by any other Dentist in the city. The greatest pains will be taken to make the Filling permanent.

To those wishing Teeth Extracted, he has always met with the greatest success in removing carious teeth and fangs.

Chloroform and Ether from the best manufactory in the States, and used with great care.

Dr. B. would further state that with his mechanical skill and practical knowledge of Dentistry, he feels confident he can satisfy the most fastidious. Call and see for yourselves.

All operations warranted, and at reduced prices. Examinations and advice free.

NEVADA COUNTY FINANCES.—One year ago, says the Nevada Democrat, County orders were worth 80 cents on the dollar, and paid in about ten months after being issued. Orders now sell for 90 cents on the dollar, and are paid in about six months after being issued. It is evident from this that the finances of the County are in a healthy condition. The debt of the County during this time has been reduced to about one-third, and is steadily decreasing.

We learn from an exchange that the County officers at Mokelumne Hill lost nearly all their books and papers, at the late conflagration. With the exception of a few record books, little was rescued from the Clerk's office. Most of the safes proved worthless. The whole contents of that of the Treasurer, consisting mostly of valuable papers, was destroyed. The contents of Adams & Co.'s large safe were rescued in a partially damaged state, but nothing was lost except the safe itself.

We call the attention of our readers to the new advertisement of Messrs. Cohn & Co. in another column. They have made extensive alterations in their store, which is now one of the most useful and convenient establishments in the County.

Testimonials from the Press.

(From the "Echo du Pacifique.")
DR. HUNGERFORD.
We wish to call the attention of our readers to the advertisement of this gentleman, whose extensive practice and great success is sufficient to induce all those afflicted to give him a call. The Doctor is not only a regularly educated Physician, but he has the principles of honesty and a heart that can feel for his fellow-beings. He has undoubtedly more practice than any other Physician in San Francisco, and it is fast increasing. To those acquainted with the Doctor, we say nothing as to his skill and integrity, as they are well known; but to strangers WE DO SAY, call at No. 226½ Dupont street, and you will find that a friend in need is a friend indeed.

(From the "Southern Medical Journal.")
PROFESSOR HUNGERFORD.
Although opposed to the system of advertising, yet we deem it but just to this gentleman to admit that his system of treatment in Private Diseases is undoubtedly the most approved one now in use throughout the civilized world.

FROM DR. HUNGERFORD'S
PRIVATE MEDICAL ROOMS, No. 226½ DUPONT STREET,
[BETWEEN WASHINGTON AND JACKSON.]
SAN FRANCISCO.
Where all diseases of a private character receive the treatment necessary to effect a speedy and effectual cure of those annoying and distressful complaints. The enviable reputation Dr. Hungerford has earned for himself by his extraordinary success in all diseases of a private nature, renders it but necessary to state his address; he therefore avoids the long advertisements of bombastic promises of the empirics of the day, so lavishly held out but seldom fulfilled. Medicines are sent to all parts of the country, with directions for their use.
NOCTURNAL EMISSIONS, Ulcers in the Throat, Syphilis, Gonorrhœa, Strictures, Gleet, and those dreadful symptoms of the head, throat, nose and skin, under the Hungerford treatment, are healed in an incredibly short time, without mercury. Young men who have become victims of solitary vice, that dreadful and destructive habit, which ruins both body and mind, call immediately on Dr. Hungerford, and you can depend on being restored to health, that greatest of God's blessings.
STONE, GRAVEL, &c.—The efficacy of Dr. Hungerford's Lithon Triptic has proved beyond a doubt to be the most certain cure in the above named most painful cases that the human frame is subject to. au25 3m

PROCLAMATION!

Ye Miners—all who love to roam,
So far away from friends and home,
Just please to stop awhile and see
What glorious news you'll get from me.

Those friends at home, why, "bless your eyes!"
You now can take them by surprise,
And show your bearded, whiskered faces,
And all your "Claims" and mining places,
Your "Tom" and "Sluice," and "tailings" too;
And even the water running through.
All this, and more, sirs, you are able
To place at home upon your table,
Thousands of miles far, far away
From this same California!
And how? Quite easy—just walk round
Towards the upper end of town,
At Mariposa, and there's the place
To get a Picture of your face.
Walk into Plecker's Saloon—
From morn 'till late in afternoon—
You'll find all things prepared for action,
And warranted to give satisfaction.
Daguerreotypes—all sorts and kinds—
To suit all fancies and all minds;
Large and small, and splendid cases,
Suitable for "Claims" or "Faces;"
Or, if you choose, a handsome Locket,
Exactly fit for a sweetheart's pocket.
All this, and more than I can mention,
You'll find there to attract attention.
Come all, no matter what your trade is,
Come right along and bring the Ladies;
(And whether they are fair or no,
Daguerreotype will quickly show.)
Pictures in *any kind of weather*,
Singly, or two or more together.
Now if you want a "view" or "claim,"
Walk in and "register your name;"
Or come my specimens to see—
No charge for that—*admittance free!*
Saloon in readiness, *boys, recollect*,
I may be off ere you expect.
Pictures good, and prices low,
Now's you chance, before I go.
Recollect the name—and call in soon—

PACIFIC TEMPERANCE HOUSE,
Nos. 87 and 89 Pacific street, between Sansome and Battery streets, San Francisco.

E. HYDE, Proprietor of the above named House, desires his friends and the public to know that he has recently enlarged, re-fitted and refurnished his Hotel, and is now prepared to furnish superior Lodgings for Gentlemen, Ladies, and Families.
HIS TABLE,
Also, is provided with the best the market affords, prepared by excellent Cooks, and served by the most civil and attentive waiters.
His guests will find every thing essential to comfort, with none of the annoyances connected with dram-selling.
It is truly gratifying to him to see that those who have stopped with him once stop again when they come this way; and he would only add, that, in view of his extension and improvements, there is now room for both themselves and their friends; and if they cannot remember our new name, which, by the by, is the original name of our wonderful city, and will distinguish our House from every other in the world, (the principal reason why it was adopted,) they will, at least, remember No. 89 Pacific street, being on one of the principal thoroughfares leading from the Steamboat Landing.

MARIPOSA CHRONICLE.

THE SPIRITS.—We find this humorous hit at the times in an exchange, under the caricature of a huge cask with legs, arms and "rye" features, confronting an astonished youth, who, mallet in hand, has come to the cellar to "draw" a gallon or so:

AFFRIGHTED YOUTH—What's this
That rises in the picter of a barrel,
And wears upon its round and half raised head
A tun dish?
PEDESTRIAN BARREL—I am thy father's spirits.
Doomed for uncertain time to quit this cellar,
Till the foul crimes done in my days of swiping
Are cooled and purged away in Maine.
But that I am forbid—being much too full
In liquor now to speak—I could a bung untap
Which would warm up thy soul—fire thy young blood,
Make thy two eyes, like flickering snuffs of candle,
Start from their sockets—
Thy knotted and outlandish locks to part,
And each particular frizzle stand bolt up,
Like disused cork-screws eager for a cork.

"Everything is arranged for your wedding with Susan Tompkins," said a father to his only son; "I hope you will behave yourself like a man, Thomas."

The individual addressed was a young man seated in a chair, dispatching a piece of bread and molasses. His only answer was a sigh, accompanied with a flood of tears.

The parent started, and in an angry voice demanded—

"What objections can you have? Susan is handsome and wealthy, and married you must be, some time or other. Your mother and I were married, and it is my command that you prepare for your nuptials."

"Yes," finally sobbed Thomas, "that's a different thing. You married mother, but I'm sent to *marry a strange gal!*"

A STEADY DIET.—An old lady down east having kept a hired man on liver nearly a month, said to him one day, "Why, John, I don't think you like liver." "Oh, yes," said John; "I like it very well for fifty or sixty meals, but I don't think I'd like it as a steady diet!" The old lady cooked something else for the next meal.

TRUE REMARK.—Mr Benton, with truth, remarked in his great speech on the Nebraska bill, that "the troubles of the country came from uneasy politicians—its safety from the tranquil masses."

DAILY LINE OF STAGES.—A daily line of stages is shortly to commence running between Jackson and Stockton. They cross the Mokelumne river at Poverty Bar, and arrive at Stockton in time for the afternoon boats.

"Please take a half of this poor apple," said a pretty damsel to a witty swain, the other evening. "No, I thank you, I would prefer a better half." Eliza blushed, and referred him to "papa."

Biddy, has that surly fellow cleared off the snow from the pavement? 'Yes, sur,' 'Did he clear it off with alacrity, Biddy?' 'No, sur, wid a shovel.'

A person should not be expected to take off his glove preparatory to shaking hands with another, any more than to take off his boot when about to kick a man.

"Nanny," said a girl to her companion, "which railroad train do you like best?" "That one," replied Nancy, "which furnishes a spark-catcher."

"Father," said an ambitious little shaver about the size of a pepper-box, "I can do without a pair of shoes, but I am suffering for a bosom pin."

Judge Richardson once said that 'every thing was foreknown, except what would be the verdict of a petit jury.'

The lady who made a dash, has since brought her husband to a full stop!

Men make their chief sacrifice to Love before they marry; women, (poor creatures!) after.

The larger the school fund, the less the prison allowance.

Punch says—"Little children are the lillies of the valleys of life."

The consequence of arbitrating between man and wife is, that you will satisfy neither, and be disliked by both

REMOVAL.
Dr. J. C. Young,

HAS removed his office from 226 1-2 Dupont street to the corner of Montgomery and California streets, opposite the Banking House of Page, Bacon & Co., where he will be happy to consult with his former patrons, and treat scientifically and with discretion, all those who may require the services of a physician. The success of Dr. Young since his advent in this State, has been without a parallel, and he hopes by continued and untiring application to his profession, to remove from the public mind that lack of confidence which has so unhappily existed in regard to the medical profession in the State of California.

P. S.—All letters enclosing $10 will receive immediate attention. Direct box 735, Post Office, San Francisco.

DR. J. C. YOUNG,
OF SAN FRANCISCO.

READ AND REFLECT.

"If there is a hereafter,
(And that there is, conscience uninfluenced,
And suffered to speak out, tells every man,)
Then it is an awful thing to die,
More horrid yet to die by one's own hand,
Self-murder—name it not!
Shall Nature, swerving from her earliest dictate,
Self preservation, fall by its own act?
Forbid it, Heaven."

THE indulgence in secret practices is the most certain, though not always the most immediate and direct avenue to destruction. Physicians of all ages have been most unanimously of opinion that the loss of one ounce of the seminal secretions, by unnatural aid or emissions, weakens the system more than the abstraction of forty ounces of blood. One of the FIRST writers on medical jurisprudence states that three-fourths of the insane owe their malady to such abuse.

How important, then, it is—for every one having the least cause to suspect any trouble in that way, should attend to it immediately; even one single occurrence should be sufficient to cause doubt, and much more so if the person had ever indulged in the soul-killing habit. The treatment pursued by the justly celebrated Dr. J. C. Young, in cases of seminal weakness, impotency, sterility, nervous debility, and paralysis, (the last is the most dangerous, and when it once occurs, is incurable,) is surpassed by any physician in the country. It is the same as that followed by him for years, under the guidance of the world-renowned *Record* of Paris, and *Acton* of London. Dr. Young's office is corner of Montgomery and California streets, opposite Page, Bacon & Co., San Francisco, California, where he can be consulted upon that and all other private diseases, with the utmost confidence and secresy. Dr. Young will warrant a perfect and permanent cure, or make no charge.

N. B.—Letters enclosing $10 will receive prompt attention. The doctor's time being so much taken up that he cannot attend to letters unless paid for it.

P. S.—Apartments privately arranged.

A CARD.

FROM Dr. J. C. Young's Private Medical Office.—TO THE AFFLICTED.—In this age of progress, when science is developing itself in such o manner as to appear almost miraculous, everything in common place is looked upon as not worth notice. In view of this fact, DR. YOUNG, corner of Montgomery and California streets, San Francisco, California, has concluded to leave the beaten track hitherto pursued by most scientific physicians, (that of waiting for the public to find you out alone,) and publish to the world, as much as may be, his knowledge of the healing art, to let those who are in need of assistance know where they can find relief, without fear of being imposed upon.

In continuation of this object, Dr. Young would say that for the past ten years he has pursued the practice of medicine in one of the largest cities of the United States, with the highest success, and that his standing as a physician is without reproach, having at one time been lecturer at the University of Pennsylvania on venerial diseases, &c.

Upon all these considerations, Dr. Young has confidence in introducing himself to the public, knowing that they will sustain well earned merit.

The following are a few of the many testimonials, which have appeared in the public journals the last few years:

[From the Boston Medical Journal.]

Although we are opposed to the system of advertising, for good and sufficient reasons, still we deem it bust justice to say that Dr. Young is one of the most industrious and indefatigable votaries of the medical science in the United States.

[From Professor Jackson.]

The subscriber is personally acquainted with Dr. Young, and has seen much of his practice, and can bear testimony to his merits as a practitioner.

[From the New York Herald.]

The eminence of this distinguished gentleman in his profession, and the very extended opportunities possessed by him for the observation of venereal disease, makes his services invaluable to those afflicted with the above complaints.

MEDICAL ADVICE.

DR. J. C. Young, who has become so celebrated for the thousands of cures which he has performed on old, chronic, mercurial, syphilitic, and all private diseases, without mercury, is consulted daily at his office, corner of Montgomery and California streets, from 9 A. M. to 8 P. M. A cure guaranteed or no pay.

Dr. J. C. Young has probably had more practice in venereal diseases than any other physician in California. He cures all the most aggravated cases of this disease, and mild ones he removes in from two to five days. The doctor has for many years, been known as the most eminent and successful physician in the United States, and what is more important to the patient, he always effects a speedy and permanent cure.

Travelers, seamen, miners and others, who wish to be cured without mercury, hindrance from business, or exposure to friends, should apply to him as soon as possible, and a perfect cure will be guaranteed in all curable cases. Recollect the name and number, Dr. J. C. Young, corner of Montgomery and California streets.

Office open from 9 A. M. to 8 P. M.

CONSTITUTIONAL DEBILITY,

OR SEMINAL WEAKNESS.—Dr. Young addresses those who have injured themselves by private and improper indulgences in that secret and solitary habit which ruins the body and mind, unfitting them for either business or society. The following are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, in pain the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervousness, irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally the fearful effects on the mind are more to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, timidity, &c., are some of the evils produced.

All persons who are afflicted with any of the above symptoms should not fail to call on Dr. Young, and be at once restored to perfect health. Let no false delicacy prevent you, but apply immediately, and save yourself from the dreadful and awful consequences of this terrible malady.

WEAKNESS OF THE ORGANS
immediately cured and full vigor restored.

DR. J. C. YOUNG,
Corner of Montgomery and California streets.

For sale as above, the celebrated French Lunar Pills, these pills are now acknowledged by the medical fraternity to be the only safe, mild and efficacious remedy to be depended upon in long standing cases of suppression, irregularity, or stopping of the functions of nature, the neglect of which is the source of such deplorable effects on the female frame.

N. B.—These pills are highly celebrated as a preventive.

PRIVATE MEDICAL OFFICE.

HUNDREDS of those who have contracted disease are disappointed of a cure by not calling on DR. YOUNG at first. He will forfeit any sum if he fails to cure any case that may come under his care, no matter how long standing and afflicting, such as ulcers, tumors, nodes, bunches, pimples on the face and body, pains in the bones and joints, wakefulness, trembling, copper-colored sores, wasting of the bones, emaciation, loss of appetite, strength and flesh, sores in the nose and ears, loss of hair, weak eyes, itching humors, &c., &c. Many persons, after being relieved of all external appearances of private disease, suppose themselves cured, but after a few months find they are troubled with various symptoms which they never had before, and which they find it impossible to relieve.

To all who are afflicted in this way, Dr. Young would particularly recommend a trial of his skill. The symptoms with which you are troubled are caused by taints in the blood, which sooner or later will destroy your health and happiness. No person who has ever had an attack of any private complaint should fail to consult Dr. Young, and take a few bottles of his invaluable purifying medicine, as they can rest assured that their blood is in a perfectly pure and healthy condition, and that every trace of disease is removed from the system.

Recent cases cured in from two to five days, without change of diet or hindrance from business, or no charge.

HIGHLY IMPORTANT DISCOVERY.

DR. J. C. YOUNG, who is celebrated for curing all private complaints of both sexes, has discovered a remedy for the cure of old, long standing cases of gonorrhœa and gleets, which he has tried in more than one hundred cases, successfully, many of which had baffled the skill of eminent physicians for years; and in not one single case has it failed, nor can it ever fail, as the nature of the remedy is such that it strikes at the root of the complaint, and eradicates it completely in a few days. New cases cured in an incredibly short space of time, without change of diet or hindrance from business.

N. B.—A permanent cure guaranteed to all in the shortest possible time, or no pay will be taken.
